Produktion AB

Frikab production AB:s Working environment policy

Our work environment policy aims to actively prevent risks and illness. Within Frikab Produktion AB all contributors share the responsibility to provide and maintain a healthy work environment. A healthy work environment encourages greater commitment and well-being which in turn gives more content and effective contributors.

We shall actively pursue our work environment by:

- In a comprehensible way inform our contributors of our work environment policy.
- To meet current work environment legislation.
- To promote and continually improve our work environment.
- Continually keep ourselves informed about the development in the work environment area and to incorporate the work environment management in our daily work.

- Create a personal commitment with all contributors.
- Continually develop all contributors work environment competence.
- To make the most of ideas and suggestions from our employees.
- Offer all our contributors healthcare and occupational health service.
