

Frikab

Produktion AB

Frikab production AB:s Environmental policy

We shall:

- Conduct our operations in accordance with current regulations, laws, legislations and other environmental standards in the industry such as RoHS and REACH.
- Continually improve our environmental work and as a main goal actively work towards lowering the energy consumption by increasing efficiency and minimizing the usage of machines.
- Recycle and waste sorting where possible, and ensure that hazardous waste is handled in a safe manner.
- Constantly increasing knowledge and awareness on environmental issues among employees.
- Work proactively and be an example in environmental issues.
